

Medical Office Online Transparency Guide

Capability	Description of capability	Types of Costs or Fees to be paid by a provider for the capability	Limitations (Technical / Practical)
170.315(a)(1) - Computerized provider order entry – medications	Enable a user to record, change, and access medication orders.	No additional cost or fees	No technical or practical limitations.
170.315(a)(2) - Computerized provider order entry – laboratory	Enable a user to record, change, and access laboratory orders.	No additional cost or fees	No technical or practical limitations.
170.315(a)(3) - Computerized provider order entry – diagnostic imaging	Enable a user to record, change, and access diagnostic imaging orders.	No additional cost or fees	No technical or practical limitations.
170.315(a)(4) - Drug-drug, drug-allergy interaction checks for CPOE	Before a medication order is completed and acted upon during computerized provider order entry (CPOE), interventions must automatically indicate to a user drug-drug and drug-allergy contraindications based on a patient's medication list and medication allergy list.	Reoccurring cost per provider per month	No technical or practical limitations.
170.315(a)(5) – Demographics	Enable a user to record, change, and access patient demographic data including race, ethnicity, preferred language, sex, sexual orientation, gender identity, and date of birth.	No additional cost or fees	No technical or practical limitations.
170.315(a)(6) – Problem list	Enable a user to record, change and access patient's active problem list	No additional cost or fees	No technical or practical limitations.
170.315(a)(7) – Medication list	Enable a user to record, change, and access a patient's active medication list as well as medication history.	Reoccurring cost per provider per month	No technical or practical limitations.
170.315(a)(8) – Medication allergy list	Enable a user to record, change, and access a patient's active medication allergy list as well as medication allergy history.	Reoccurring cost per provider per month	No technical or practical limitations.
170.315(a)(9) - Clinical decision support (CDS)	Enables the user to enable CDS interventions based off of the patients Problems List, Medication List, Demographic, Laboratory Tests Ordered, and Vital Signs. Enable CDS when a patients medications, medication allergies, and problems are incorporated from a transition of care/referral summary is received. Enable a limited set of identified users to select (i.e., activate) electronic CDS interventions based on each one and at least one combination of the data referenced above.	No additional cost or fees	Requires a setup to enable CDS based on user and patient criteria.
170.315(a)(10) - Drug-formulary and preferred drug list checks	Automatically check whether a drug formulary and preferred drug exists for a given patient and medication.	Reoccurring cost per provider per month	Patient demographics and insurance information must be completed to activate formulary options.
170.315(a)(11) – Smoking status	Record, change, and access the smoking status of a patient.	No additional cost or fees	No technical or practical limitations.
170.315(a)(12) - Family health history	Record, change, and access a patient's family health history.	No additional cost or fees	No technical or practical limitations.
170.315(a)(13) - Patient-specific education resources	Patient-specific education resources based on data included in the patient's problem list and medication list.	No additional cost or fees	No technical or practical limitations.
170.315(a)(14) - Implantable device list	Record Unique Device Identifiers associated with a patient's Implantable Devices.	No additional cost or fees	No technical or practical limitations.
170.315(b)(3) - Electronic prescribing	Enable a user to perform electronic prescription transactions, new prescription, change prescriptions, cancel prescriptions, Refill prescriptions, Receive fill status notifications, request and received medication history information.	Reoccurring cost per provider per month. Prescribing controlled Substances is an additional yearly fee per provider.	Providers are issued an SPI from surescripts before they are able to begin electronic prescribing.
170.315(d)(1) - Authentication, access control, and authorization	Authenticate Unique User and Establish Permitted User Access	No additional cost or fees	No technical or practical limitations.
170.315(d)(2) - Auditable events and tamper-resistance	Record actions related to electronic health information and record the audit log status.	No additional cost or fees	No technical or practical limitations.

Capability	Description of capability	Types of Costs or Fees to be paid by a provider for the capability	Limitations (Technical / Practical)
170.315(d)(3) - Audit report(s)	Enable a user to create an audit report for a specific time period and to sort entries in the audit log according to each of the data specified in the standards in §170.210(e).	No additional cost or fees	No technical or practical limitations.
170.315(d)(4) – Amendments	Ability to select the record affected by a patient's request for an amendment and accept or deny an amendment.	No additional cost or fees	No technical or practical limitations.
170.315(d)(5) –Automatic access time-out	Automatically stop user access to health information after a predetermined period of inactivity.	No additional cost or fees	No technical or practical limitations.
170.315(d)(9) - Trusted connection	Enables the ability to create a trusted connection.	No additional cost or fees	No technical or practical limitations.
170.315(d)(11) - Accounting disclosures	Record disclosures made for treatment, payment, and health care operations	No additional cost or fees	No technical or practical limitations.
170.315(e)(2) – Secure Messaging	Enable a user to send messages to, and receive messages from, a patient in a secure manner.	No additional cost or fees	No technical or practical limitations.
170.315(e)(3) - Patient health information capture	Enable a user to identify, record, and access information directly and electronically shared by a patient (or authorized representative).	No additional cost or fees	No technical or practical limitations.
170.315(g)(2) - Automated measure calculation	For each percentage-based measure that is supported by a capability included in a technology, record the numerator and denominator and create a report including the numerator, denominator, and resulting percentage associated with each applicable measure.	No additional cost or fees	Medical Office Online, Inc. is not certified to all four calculation methods of (g)(2). We are certified to ACI (TIN/NPI) calculations only.
170.315(g)(3-5) Safety-enhanced Design (SED), Quality Management System (QMS) and Accessibility-centered Design (ACD)	SED: User-centered design processes must be applied to each capability. QMS: the use of a QMS in the development, testing, implementation, and maintenance. ACD: No accessibility-centered design standard or law is used in the development, testing, implementation, and maintenance of capabilities for which certification is being sought.	No additional cost or fees	No technical or practical limitations.
