

Medical Office Online Transparency Guide

Capability	Description of capability	Types of Costs or Fees to be paid by a provider for the capability
170.315(a)(1) - Computerized provider order entry – medications	Enable a user to record, change, and access medication orders.	No additional cost or fees
170.315(a)(2) - Computerized provider order entry – laboratory	Enable a user to record, change, and access laboratory orders.	No additional cost or fees
170.315(a)(3) - Computerized provider order entry – diagnostic imaging	Enable a user to record, change, and access diagnostic imaging orders.	No additional cost or fees
170.315(a)(4) - Drug-drug, drug-allergy interaction checks for CPOE	Before a medication order is completed and acted upon during computerized provider order entry (CPOE), interventions must automatically indicate to a user drug-drug and drug-allergy contraindications based on a patient's medication list and medication allergy list.	Reoccurring cost per provider per month
170.315(a)(5) – Demographics	Enable a user to record, change, and access patient demographic data including race, ethnicity, preferred language, sex, sexual orientation, gender identity, and date of birth.	No additional cost or fees
170.315(a)(9) - Clinical decision support (CDS)	Enables the user to enable CDS interventions based off of the patients Problems List, Medication List, Demographic, Laboratory Tests Ordered, and Vital Signs. Enable CDS when a patients medications, medication allergies, and problems are incorporated from a transition of care/referral summary is received. Enable a limited set of identified users to select (i.e., activate) electronic CDS interventions based on each one and at least one combination of the data referenced above.	No additional cost or fees
170.315(a)(12) - Family health history	Record, change, and access a patient's family health history.	No additional cost or fees
170.315(a)(14) - Implantable device list	Record Unique Device Identifiers associated with a patient's Implantable Devices.	No additional cost or fees
170.315(b)(3) - Electronic prescribing	Enable a user to perform electronic prescription transactions, new prescription, change prescriptions, cancel prescriptions, Refill prescriptions, Receive fill status notifications, request and received medication history information.	Reoccurring cost \$60 per provider per month for ePrescribe. Prescribing controlled Substances is an additional \$150 yearly fee per provider.
170.315(d)(1) - Authentication, access control, and authorization	Authenticate Unique User and Establish Permitted User Access	No additional cost or fees
170.315(d)(2) - Auditable events and tamper-resistance	Record actions related to electronic health information and record the audit log status.	No additional cost or fees
170.315(d)(3) - Audit report(s)	Enable a user to create an audit report for a specific time period and to sort entries in the audit log according to each of the data specified in the standards in §170.210(e).	No additional cost or fees
170.315(d)(4) – Amendments	Ability to select the record affected by a patient's request for an amendment and accept or deny an amendment.	No additional cost or fees

Capability	Description of capability	Types of Costs or Fees to be paid by a provider for the capability
170.315(d)(5) –Automatic access time-out	Automatically stop user access to health information after a predetermined period of inactivity.	No additional cost or fees
170.315(d)(6) - Emergency access	Permit an identified set of users to access electronic health information during an emergency.	No additional cost or fees
170.315(d)(7) - End-user device encryption	Technology is designed to prevent electronic health information from being locally stored on end-user devices after use of the technology on those devices stops.	No additional cost or fees
170.315(d)(8) - Integrity	Create a message digest in accordance with the standard specified in §170.210(c)(2). Verify in accordance with the standard specified in §170.210(c)(2) upon receipt of electronically exchanged health information that such information has not been altered.	No additional cost or fees
170.315(d)(9) - Trusted connection	Enables the ability to create a trusted connection	No additional cost or fees
170.315(d)(11) - Accounting of disclosures	Record disclosures made for treatment, payment, and health care operations	No additional cost or fees
170.315(d)(12) - Encrypt Authentication Credentials	The Health IT Module encrypts stored authentication credentials in accordance with standards adopted in § 170.210(a)(2).	No additional cost or fees
170.315(d)(13) - Encrypt Authentication Credentials	the Health IT Module supports the authentication, through multiple elements, of the user’s identity with the use of industry-recognized standards.	No additional cost or fees
170.315(e)(3) - Patient health information capture	Enable a user to identify, record, and access information directly and electronically shared by a patient (or authorized representative).	No additional cost or fees
170.315(g)(2) - Automated measure calculation	For each percentage-based measure that is supported by a capability included in a technology, record the numerator and denominator and create a report including the numerator, denominator, and resulting percentage associated with each applicable measure.	No additional cost or fees
170.315(g)(3-5) Safety-enhanced Design (SED), Quality Management System (QMS) and Accessibility-centered Design (ACD)	SED: User-centered design processes must be applied to each capability. QMS: the use of a QMS in the development, testing, implementation, and maintenance. ACD: No accessibility-centered design standard or law is used in the development, testing, implementation, and maintenance of capabilities for which certification is being sought.	No additional cost or fees
